SUMMARY

Aspiring software engineer with front-end experience in HTML, CSS, and JavaScript, focused on building responsive, user-friendly web applications, with a strong foundation in UI design and a goal of growing into full-stack development.

PROJECT EXPERIENCE

Modern Weather Application | HTML, CSS, JavaScript

- Built a real-time weather app using the Visual Crossing API with asynchronous JavaScript.
- Integrated external API data by handling async requests, responses, and errors in JavaScript.
- Rendered dynamic weather UI using HTML, CSS, and DOM manipulation.

Restaurant Website | HTML, CSS, JavaScript

- Built a restaurant website using Webpack and modular JavaScript by implementing dynamic tab-based navigation and DOM-driven rendering.
- Improved code organization and maintainability by structuring the project with a Webpack build setup and ES modules.
- Delivered dynamic UI updates by rendering page content entirely through JavaScript and DOM manipulation.

TECHNICAL SKILLS

- **Languages & Frameworks:** HTML, CSS, JavaScript, React (learning).
- **Tools:** Git, GitHub, Figma, VS Code
- **Core Competencies:** Full-Stack Development, Responsive Web Design, Wireframing, Problem-Solving

EDUCATION

Africa Leadership University (ALX).   **June 2025 - present**
